

# **Guide to Apprenticeships 2023**

## What is an apprenticeship?

An apprenticeship is a genuine job where you gain experience in the transferable skills that come from being in the workplace alongside learning and achieving a valuable qualification. You will also be earning a wage. You are treated the same as any other employee but are given the time to concentrate on your studies. You will get the chance to learn from the people that you work alongside and will have a mentor for support. Most of the training will take place within the workplace and then providing which qualification you are on, you will spend time in college, with a training provider or university. This off the job training will equate to at least 20% of your working week. It will vary from one day a week to blocks of days per month depending on the qualification. The time to complete the qualification will also vary, dependent on the level that you are doing. For example, on a level 2 Intermediate apprenticeship you will be on programme from anywhere from 12 – 15 months whereas a Degree level 6 or 7 you could be anywhere between 3 – 6 years.

## What levels are there?

**Intermediate** - Level 2 – Equivalent to 5 GCSE passes at grade A\*-C or 9-4.

**Advanced** - Level 3 – Equivalent to 2 A Level passes/Level 3 Diploma/International Baccalaureate.

**Higher** – Equivalent to Level 4, 5, 6 and 7 Foundation Degree and above.

**Degree** – Equivalent to Level 6 and 7. Bachelor's or Master's Degree.

## What can I do an Apprenticeship in?

There are over **1,500** job roles over the 4 different levels and over 70 universities and 200 colleges are approved to deliver the higher and degree apprenticeships. There are over 400 different industries offering apprenticeships and it is increasing all the time.

*Some companies offering apprenticeships.....*

## *Some of the universities you could study at .....*

**Manchester  
Metropolitan  
University**

**University of  
Sunderland**

**Aston University**  
Birmingham

**Sheffield  
Hallam  
University**

**York St John  
University**

**UNIVERSITY OF  
PORTSMOUTH**

**UNIVERSITY OF  
DERBY**

**NOTTINGHAM  
TRENT UNIVERSITY**

**LEEDS  
BECKETT  
UNIVERSITY**

**Lancaster  
University**

**BPP  
UNIVERSITY**

**University of Essex**

**Coventry  
University**

**UNIVERSITY OF LEEDS**

## **How and when do I apply for an apprenticeship?**

There is not a specific time to apply for an apprenticeship as they appear all year round. This is known as 'roll on roll off'. However, some of the larger companies have an intake at the same time every year for example September or January. If you are thinking of doing an apprenticeship it is a good idea, to start looking throughout Year 12 so that you can see what sort of vacancies exist but also you can see companies you may be interested in and when they start to advertise. It is good to do your research so that you are prepared but remember applying for an apprenticeship is like applying for a job it may not be there when you are ready to apply. Thinking about what you want to do and where you would like to work, will help you narrow down and make your search more refined.

At the back of the booklet, there is a list of websites where you can look for an apprenticeship. They do not just appear on one site and some companies only advertise on their website.

Each company will have its own way to apply there is not a set application form for you to fill in. Be prepared by having your CV up-dated as you may have to attach it to your application form when you apply.

# Entry Requirements

## Intermediate (Level 2)

Applicants need to be over 16 years old. Some companies require Maths and English minimum grade 4. Some however, allow as part of the apprenticeship, for you to re- take if you do not have but you will need to pass to complete the qualification.

## Advanced (Level 3)

As above

## Higher (Level 4 and above)

Entry requirements can include at least five GCSEs grades A-C 9-4), and Level 3 qualifications, including A levels, NVQ/SVQ Level 3, or a BTEC National. Some will expect or require applicants to have subjects related to the particular apprenticeship.

## Degree Level 5 to 7

Enable apprentices to achieve a full bachelor’s or master’s Degree as part of their apprenticeship. As above, some employers have specific entry requirements. For example some IT apprenticeships have required an A level (or equivalent) grade range of ABB to CCC. Many employers will expect or require applicants to have qualifications in subjects related to the particular apprenticeship

# What do Apprentices get paid?

As an apprentice, like with all job roles you have to receive at least the minimum wage. You will be paid, for all of the hours that you work including the time spent at university/college. Here are the current minimum rates for National Minimum wage and National Living Wage that change every April:

	23 and over	21-22	18-20	under 18	Apprentice
April 2023	£10.42	£10.18	£7.49	£5.28	£5.28

## Apprentices

Apprentices are entitled to the apprentice rate if they’re either:

- aged under 19
- aged 19 or over and in the first year of their apprenticeship

Example

An apprentice aged 21 in the first year of their apprenticeship is entitled to a minimum hourly rate of £5.28.

Apprentices are entitled to the minimum wage for their age if they both:

- are aged 19 or over
- have completed the first year of their apprenticeship

Example

An apprentice aged 21 who has completed the first year of their apprenticeship is entitled to a minimum hourly rate of £10.18.

Every apprenticeship is tailored to the person doing it. Not only that, but pay varies dramatically based on the sector you are in, your employer, and your level of study. You will also find that apprenticeships around London and the South East tend to pay a bit more, too as the cost of living is higher.

## Statistics

In a 2018 survey, after finishing their scheme, as many as 85% of apprentices will stay in employment, with two-thirds (64%) remaining with the same employer.

In the same survey, which questioned over 5,000 apprentices, it was found that one in three (32%) of all former apprentices received a promotion within a year of completing their apprenticeship, whilst three-quarters (75%) stated that they were given more responsibility in their role. It also reported that half (51%) of companies stated that it takes an apprentice approximately five years to reach management level. 92% of apprentices report of being 'satisfied' with their apprenticeship.

## Pros and cons of doing an apprenticeship

### Pros

- 1) You work in a real job for a real employer
- 2) You gain valuable work place skills and experience
- 3) You are paid a salary and get paid holiday
- 4) You achieve a qualification
- 5) You get support from colleagues and a training organisation
- 6) You become more employable
- 7) You have no university debt.

### Cons

- 1) Will not experience university life
- 2) Shorter holidays
- 3) Greater responsibility earlier
- 4) Apprenticeships are more competitive
- 5) Harder to change careers at a later date
- 6) Starting salary is lower

### ***An Apprenticeship is not a soft option because...***

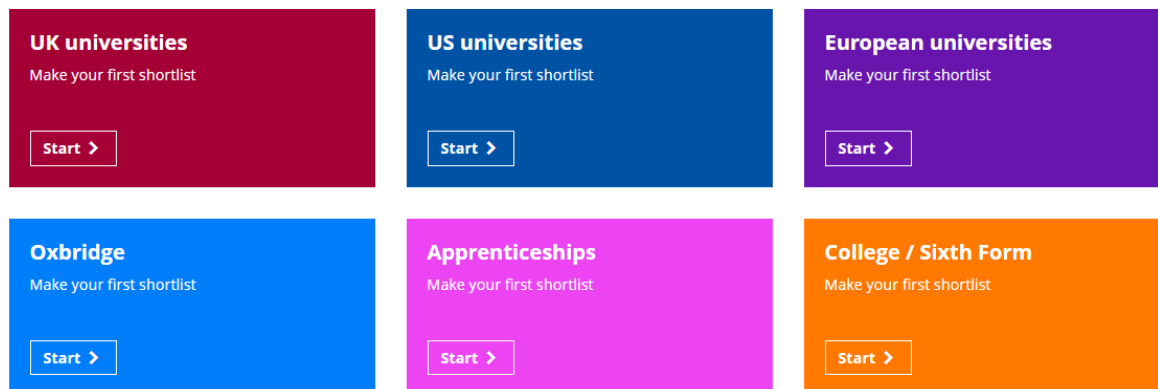

- 1) You will have to apply for multiple vacancies to be with a chance of success. This means that you may have to fill in company application forms that do take time.
- 2) You may have to attend assessment days as part of the application process, and this may require preparation.
- 3) It is good practice to apply for university as well as applying for apprenticeships, which means filling in the UCAS form as well as the apprenticeship job application forms.
- 4) You have to be prepared to go straight into the work environment and must study along with working full time.
- 5) Whilst the experience will be worthwhile, you are not guaranteed a position at the end of the apprenticeship.

## Where to look for an apprenticeship

If you are considering doing an apprenticeship, please do come and talk to us in the Careers Office on the ground floor of the Turing Centre, as we are able to give you some guidance on where you can look and talk through all your options. It can be quite daunting to know where to look or even which one would suit you best. It does take a while to find the right one so be prepared to put the research in. Here are some suggestions on where you can start to research and look for vacancies:

You can use the apprenticeship search tool in Unifrog:
